a few words from the President

Dear Members

As I step into the role of President of the FPTA, I am filled with optimism and a strong sense of responsibility towards our trade and industry. Our journey ahead is filled with opportunities and challenges, and I am confident that together, we can achieve remarkable growth and sustainability.

Collaboration is key to our success which is what I would like work closely with stakeholders – industry, consumers and traders- as we can drive collective progress much faster. Let us leverage our collective expertise to overcome challenges and seize new opportunities.

In these turbulent times, with conflicts affecting global stability, it is crucial for us to remain united and focused on our goals. By fostering a spirit of cooperation and resilience, we can navigate these challenges and emerge stronger.

As we navigate new opportunities to make Vikasit Bharat a reality sooner than 2047, let us accelerate the implementation of solutions discussed during the Conference to address upcoming challenges and harness the potential of paper trading, thereby creating a bright future for all of us. Very similar to What one sheet of paper said to the other? Let's stick together!

Together, let us build a resilient, innovative, and sustainable paper industry that not only meets the needs of today but also paves the way for a brighter future.

Warm regards,

Mehul Mehta
